

22MILES HEALTHCARE DIGITAL SIGNAGE & WAYFINDING SOLUTIONS

Give your patients and visitors a higher quality experience throughout their journey including wayfinding directions in their appointment reminder from home to their appointment, easily updated physician directories, wayfinding kiosks with text to mobile phone directions, patient health information in waiting rooms and more. Digital signage in break rooms insures important messages are seen by staff as well as an opportunity to teach and engage.

ONE POWERFUL SOLUTION FOR ALL YOUR MEDIA DESIGNS AND DIGITAL COMMUNICATION NEEDS

22MILES Digital Signage applications allow you to customize the look and feel of every project, creating a memorable and lasting experience for your users. Now you can manage all content changes, drag-and-drop widgets and visual filter capabilities at your fingertips. Welcome to a new world of branding and client service with our next generation technology.

- Reduce perceived wait times with digital signage that educates and informs.
- Cross promote services, announce events, community news, introduce new staff and more.
- Integrate with live wait times, social media or any open API.

- Update directories on-the-fly or integrate for automatic updates.
- Choose interactive touch directories for quicker searches.
- Add 22Miles' Voice Command Control for a touch-free experience.

22MILES HEALTHCARE DIGITAL SIGNAGE & WAYFINDING SOLUTIONS

"We believe that wayfinding should be an easy experience for any patron, visiting any establishment, while using any digital device. As a result, we designed a state-of-the-art interactive digital signage wayfinding solution that fills industry gaps and solves the needs of everyday communication urgencies." - 22MILES

- Prevent wasted staff time giving directions to lost patients and reduce late appointment arrivals.
- Navigate within a building, between buildings and to outpatient clinics.
- Send directions to a mobile phone via a QR code, text or email.
- Add multiple languages.
- Add 22Miles Voice Command Control for a touch-less interactive touch experience.
- Integrate with your health system app for seamless navigation from home to appointment.
- Keep your donor display up-to-date without the expense of new plaques and hardscape.
- Thank all of your donors, no matter their donation amount, with easy to search categories using a pop-up keyboard.
- Add donors automatically by integrating with your donor software.
- Move and add rooms, open and close route in minutes.
- Tell stories with videos about your donors and how and who benefits from donations.
- Promote future donor events and share photos from current and past events.
