

Healthcare Solutions

Challenges

Healthcare spaces can be overwhelmingly large and complex, making navigation a daunting task for patients, especially those in pain. The size and layout of these facilities often lead to confusion and added stress, underscoring the need for improved wayfinding solutions to help patients find their way around more easily. Beyond enhancing the patient experience, there are numerous opportunities to improve staff communication and recognize the contributions of donors' and employees' achievements. This is why choosing the right digital signage software is critical to success.

How 22Miles Solves This

In healthcare, we recognize the utmost value of time, and updating digital screens should be a simple task. That's why we created an intuitive and straightforward content management system. Your staff can effortlessly make content changes without extensive training or coding expertise. From updating 3D wayfinding maps and building directories to modifying existing messages or creating new ones, the 22Miles platform empowers you easily and flexibly. As an innovative and powerful content management system, it seamlessly integrates with your existing hardware and caters to all your digital signage needs. Rest assured, your screen content management is in capable hands, leaving you more time to focus on what matters most – providing exceptional healthcare services.

What 22Miles Offers

Donor and Foundation Walls

- Recognize donors, celebrate your history, and share patient stories via dynamic, engaging content
- Use QR code for on-the-spot donations
- Easy to make edits or add new content
- Recognition wall is perfect for nurse appreciation board
- Interactive screens for additional information to engage visitors

Physician and Building Directory

- Create building directories that are easily updated
- Provide touchscreen and mobile app access to help visitors find providers quickly
- Warmly welcome patients and visitors as they enter the building

Interactive 3D Wayfinding

- Guide patients, visitors, & staff via dynamic 3D wayfinding
- Ideal for multiple floors and complex layouts
- Maps are transferable to mobile devices with a QR code for navigation on-the-go
- Includes ADA routing and accessibility options

Staff Signage

- Omnichannel staff communications
- Display required educational training content
- Motivate teams with inspiring quotes, patient survey feedback, and team goals
- Send critical communications via screens, kiosks, video walls, and mobile

Healthcare Solution Benefits
